## Options

## SFRA9300TN 90CM CLASSIC THERMOSEAL OVEN

### THERMOSEAL

The seal of Smeg's quality, technical excellence and taste: succulent roasts, crisp pastry and impressive baking is achieved in Smeg's unique, perfectly controlled cooking environment. Thermoseal maintains the perfect atmospheric balance in the cavity for optimum cooking conditions.

### VAPOUR CLEAN

Smeg's Ever Clean enamel's tough surface has a glassy finish, so a simple spray of water and detergent around the cavity in conjunction with the Vapour Clean option will generate heat and steam to soften any grease for a wipe-clean result.

DISHWASHERS

## SMEG FULLY-INTEGRATED DISHWASHER

### ORBITAL WASH SYSTEM

Smeg's orbital wash system has a major spray arm and satellite spray arm which spins ten times for every single revolution of the major spray arm to ensure water is thoroughly distributed in-between every piece in the wash for exceptional results.

### ACTIVE ACQUASTOP

Active Acquastop electronically determines when and how much water to let into the dishwasher, automatically controlling the water feed at the tap. It's a major advantage of a Smeg dishwasher, because there is no water in the hose and therefore no building water pressure, where problems most often occur. Active Acquastop is one of five distinctive water safety and flood prevention features in all Smeg dishwashers.

### 5-STAGE FILTRATION SYSTEM

The ultimate dishwasher filtration system maintains a high quality wash by trapping food, thus preventing it from entering the wash system.

### DELAY TIMER

Every Smeg dishwasher has a delay start option, which allows you to operate the machine during periods of off-peak or lower energy tariffs. The combination of excellent water and energy savings combined with time of use can ensure much lower running costs.
